

Hatfield Township Parks & Recreation

Recreation is an essential component to social, emotional, mental and physical health. It promotes human development, strengthens communities and improves quality of life.

Hatfield Township offers a variety of parks, trails, open space, sports facilities and recreational opportunities for residents. We set high standards with our programs and events and are dedicated to maintaining a catalog of excellent activities for the community. We could not accomplish this each year without the support of our generous sponsors.

Thank you for supporting
the Hatfield Community!
